What will your adviser do?

Financial planning services

If you receive personal advice from your adviser, you will be provided with a personalised 'advice document' – i.e. a Statement of Advice (SoA) or Record of Advice (RoA), which will include the following:

- Summary of your current situation – where you are now
- Your goals and objectives – where you want to be
- Recommendations – a plan to assist you getting there
- Information – about any costs such as product costs, fees, commissions or other charges payable and any associations with financial product issuers, credit providers or other parties.

If your adviser recommends a particular investment or insurance product to you, they will provide you with the relevant product brochures such as Product Disclosure Statements (PDS) and/or Investor Directed Portfolio Service (IDPS) guides. The PDS / IDPS will give you all necessary information to enable you to make an informed decision about your investment or whether to acquire a financial product, including information about the key benefits, risks and costs associated with the product. We encourage you to read these documents carefully and ask your adviser any questions you have.

You are under no obligation to act on your adviser's advice, but if you do decide to follow their recommendations, they will help you complete the necessary documents to get your financial strategy underway.

Credit assistance services

If you require credit advice, your adviser will ensure you are not provided with credit assistance where the recommended contract is unsuitable for you. To do this, your adviser is required to complete a 'Preliminary Assessment' document. This document is a type of 'advice document'. It analyses your needs, situation and ability to repay. A credit contract (or a loan) will be unsuitable for you if at the time of the assessment, it is likely that when the credit is to be provided, the loan will not meet your requirements or objectives; or you could not repay or could only repay with substantial hardship. Your adviser must also make reasonable enquiries or take actions to:

- Understand your requirements and objectives in relation to the credit contract or credit limit increase
- Understand your financial situation and
- Verify your information, for example, obtaining proof of income, employment and expenditure.

Your adviser needs to give you a written copy of the Preliminary Assessment free of charge, or upon request, any time within 7 years of the date if a Credit Quote was also provided. If the request is made within 2 years of the Credit Quote, the Preliminary Assessment must be provided within 7 business days after the request is received, otherwise the Preliminary Assessment must be provided within 21 days at all other times. If an adviser is assisting you to arrange a loan, a Credit Proposal Statement (if separate to a SoA) or SoA must be provided. Any fees and costs will be disclosed to you in the Credit Quote and/or Credit Proposal Statement (if separate to a SoA) or SoA. A Credit Proposal Statement is another type of 'advice document'. Advisers may also receive commissions from lenders or lessors. It should be noted that your adviser is prohibited from suggesting or assisting you to apply for an 'unsuitable' loan contract.

Before entering into any loan contract, it is important that you carefully read and understand your legal obligations under the loan. If you have any concerns, you should seek independent legal and financial advice before entering into a contract.

What does your adviser expect from you?

To enable your adviser to provide you with appropriate advice, you need to provide them with:

- Complete and accurate information about your personal objectives, financial situation and needs
- Information about any changes to your situation or contact details.

You may elect not to provide your adviser with certain information but if you do, you will need to consider the appropriateness of any advice provided to you before you act upon the advice. You should carefully read any warnings contained in your advice document.

Before your adviser provides you with advice, you will need to agree to the type and scope of advice to be provided, usually in the 'Fact Find' document or a service agreement. If you subsequently decide to act on their advice, you will need to provide your consent to proceed with the advice. This usually means 'signing' a document called an 'Authority to Proceed' to confirm that you understand both the advice you have received and the benefits, risks and costs associated with the products or services recommended to you.

What fees are paid to your adviser?

Matrix initially receives all fees from clients and distributes them to advisers and their practices after our Licensee fees and other expenses are taken out. Matrix has a split arrangement with your adviser, where we retain up to 10% of all fees paid by you. This Licensee split arrangement may vary and will be disclosed in advice documents such as a Statement of Advice or Record of Advice.

What fees will your adviser charge?

All fees and charges will be discussed and agreed between you and your adviser prior to providing and implementing their services. Any remuneration paid to Matrix, or your adviser for advice, or by a product provider that relates to an individual product recommendation will be disclosed in the advice document provided to you. Unless otherwise noted, all fees are inclusive of GST.

A fee disclosure statement will be given to you each year if you choose to enter into an ongoing fee arrangement with your adviser. It will outline the adviser service fees paid and the services you received in the preceding 12 months.

The level of fees will depend on complexity of the advice required and will always be agreed with you prior to proceeding. For example a complex strategy involving multiple companies, trusts and estate planning which involves liaising with accountants and solicitors, may have an initial adviser service fee of \$19,000 and an ongoing service fee of \$7,000 pa. However, for more simple superannuation and insurance advice, the initial adviser service fee may only be \$1,100 with an ongoing fee of 0.77% of your superannuation or an equivalent flat dollar fee amount.

Generally, advisers either charge a flat fee or percentage based fee. Your adviser may charge you and receive the following:

Initial advice fees	Range of fees (inclusive of GST)		Examples
These are fees paid by you for: <ul style="list-style-type: none"> • Research into your existing situation including your current financial products (within the agreed scope) • Preparation of a strategy and research into appropriate recommended products • Presentation of advice and recommendations to you in an advice document such as a Statement of Advice. 	Percentage based fee of your investment account balance	Up to 5%	Your adviser may charge you an agreed fee of 1.5% of your \$120,000 investment account balance. The initial advice fee will be \$1,800.
Advisers may also charge an additional implementation fee to assist with implementing the advice.			
Ongoing advice/service fees	Range of fees (inclusive of GST)		Examples
These are fees paid by you for: <ul style="list-style-type: none"> • The provision of ongoing advice on your portfolio/ strategy to ensure that it remains appropriate to your needs and circumstances • Ongoing adviser service fees may be indexed to inflation • Generally, ongoing fees are calculated and payable on a monthly or quarterly basis. 	Flat fee	Up to \$30,000	Your adviser may charge you an agreed fee of \$2,500 p.a.
	Percentage based fee of your investment account balance	Up to 2.5%	Your adviser may charge you an agreed ongoing service fee of 0.8%. If your investment account balance is \$280,000 the ongoing service fee will be \$2,240 that year.
Commissions			
These payments are made by the product providers in the form of initial and/ or ongoing commissions and are not an additional cost to you. Generally, insurance product providers pay commission.			

Also, if your adviser provides you with a further advice document such as a SoA or RoA (which may arise depending on the complexity of the advice and the services provided), other fees may be payable. Any such fees and method of payment will be agreed in writing between you and your adviser and may include up-front, ad hoc, execution only service fees, implementation or ongoing fees, or a combination.

Fees can be deducted from your product or can be invoiced directly to you via a combination of methods. To pay for these fees, you have the option to pay the fees by:

- Credit card: if a fee is paid by credit card, this option will attract a variable service charge that is subject to change at any time without notice by the bank. The latest service fee is available on the bank's website
- Direct debit
- Direct credit
- Cheque
- A deduction from your superannuation or investment product.

Superannuation and investment products

Your adviser may receive adviser service fees, or ongoing fees for the advice and services they provide to you. Investment and superannuation product providers generally, deduct their costs from the investments. Some products or platforms have additional fees.

Licensee fee

A licensee fee may apply on some platforms. This fee is an additional cost to you and is received by Matrix. The licensee fees are collected by the platform provider in consideration for licensee services such as:

- Research on the investments and management of the Approved Product List available through preferred platforms
- Supervision and quality checking of preferred platforms
- Conducting due diligence on the investment and preferred platforms
- Providing feedback on behalf of clients to the product manufacturers on the enhancement and features of investment products available through preferred platforms
- Negotiating with product and/or preferred platform providers on client fee rebates
- Facilitating reduced administration fees from preferred platforms
- In some cases, assistance with issue resolution
- The licensee fee may be up to 0.25% p.a. of your total investment under the platform. The exact amount of the licensee fee will be provided to you in an advice document. For example, if a Licensee Fee was 0.23% and your account balance was \$100,000 the fee would be \$230 p.a.

MX Passport portfolio

If you invest in the MX Passport portfolio blends, 0.22% p.a. (including GST) of your investment balance collected by the platform or administration service will be passed on to Matrix, for the management and research expertise provided in managing and executing the portfolio of investments for you over time. For example, if your investment balance is \$100,000 Matrix will receive \$220 p.a.

Life insurance products

Your adviser may receive an up-front commission of up to 70% (exclusive of GST) of your first annual insurance premium for arranging your cover. This amount is reduced to, up to 60% from 1 January 2020. In addition, your adviser may receive after the first year, an ongoing annual 'trail' commission of up to 20% (exclusive of GST) of your annual insurance premium. Note that where commissions are the same for initial upfront and ongoing annual commission (i.e. level) the above commission caps do not apply. These commission payments are made by the relevant product issuers and are not an additional cost to you. Advisers may also charge initial and ongoing adviser services fees. Insurers can deduct premiums directly from you or from your superannuation account balance.

Credit products

Your adviser may also receive commissions from lending product providers or lessors and these are not an additional cost to you. Lenders usually pay upfront and ongoing commissions based on the size of the loan; the loan type and only if the loan is settled and drawn down. For example, if a loan balance was \$100,000, your adviser may receive between \$0 and \$1,000 upfront and as ongoing commission p.a. Your adviser may also charge a fee for services that will be agreed with you and detailed in your credit quote or Fact Find. Other major fees and charges will be outlined in the credit proposal statement or SoA.

What other payments and benefits may Matrix and your adviser receive?

Sometimes in the process of providing advice and other financial and credit assistance services, Matrix or our advisers may receive benefits from product providers such as sponsorship of events, subsidised educational conferences, rebates, bonuses, preferred product rates or other fees.

Non-monetary benefits

These benefits are discretionary in nature and relate to future events. It is therefore not possible to provide an estimated dollar value on these benefits at this point in time. Advisers may receive benefits from associated ClearView companies or product providers such as:

- Educational conferences and seminars
- IT Software or support
- Non-monetary benefits such as business lunches, tickets to sporting and cultural events, or other minor benefits. These benefits cannot be accepted on a frequent or regular basis or over the value of \$300.

Your adviser may also hold shares in ClearView Wealth Limited (ACN 106 248 248) through an arrangement with Matrix or by purchasing them separately through the ASX. Advisers, their associated companies and trusts may receive dividends in respect of these shares.

How will I know what is payable?

Details of all initial and ongoing advice fees and commissions will be disclosed to you in dollar amounts in the advice provided by your adviser. You will receive the advice document before your adviser acts on your instructions unless you instruct them to act immediately, in which case all amounts payable will be disclosed to you verbally at the time that advice is provided.

Will anyone be paid for referring you to your adviser?

If someone has referred you to your adviser, Matrix or your adviser may pay a fee or commission in relation to that referral. Matrix may pay a referral fee to a referral partner which may range from 0% to 50% of the initial and/or ongoing fees or commissions. Where a referral fee is paid, details will be provided to you in your advice document such as a SoA or RoA.
